Projects

- **HTMLHelp** - Created an online HTML and CSS learning website in a group of four members.
    - Developed the project using HTML, CSS, PHP, Bootstrap, and MySQL on XAMPP.
    - Users can log in to attempt questions and view the answers to those questions to help them learn more about HTML.
    - Admin can insert and remove questions, manage questions, and manage users.
    - https://github.com/Mike5931/HTMLHelp
- **EverythingPikachu** – Created an online e-commerce website collaborating in a group of three members. This website is an e-commerce site that shows Pikachu products from Pokèmon.
    - Developed the project using HTML, CSS, PHP, Boostrap, and MySQL on cPanel.
    - Implemented multiple user permissions.
    - Delegated tasks and roles to members in the group.
    - https://github.com/Mike5931/EverythingPikachu
